## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 8-14 and 21-26 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a method or process for performing an incrementation or addition via a mathematical algorithm to produce a sum result. The claims are not limited to a practical application of the mathematical algorithm because the sum result is not a useful, concrete and tangible result. More specifically the sum result is not a tangible result because it is not a real-world result.

### ***Claim Rejections - 35 USC § 112***

2. Claims 15-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the last three lines of claim 15 each occurrence of "4" should be "b".

### ***Allowable Subject Matter***

3. Claims 1-7, 27 and 28 are allowed.

Art Unit: 2193

4. Claims 15-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
